Subject Upper Columbia River Site: update

The first deliverable from Teck Cominco, i.e., Technical Memorandum on Remedial Action Objectives for Ecological Risk Assessment, is due to EPA on October 30, 2006. [Please note that at Teck Cominco's request, RAOs are also called risk management-based action objectives*]. A meeting was held on October 17, 2006, the intent of which was for Teck Cominco to introduce and discuss its list of preliminary RAOs for ecological receptors. (b)(5) attorney-client privilege, (b) (5), (b)(5) attorney work product

* Risk management-based action objectives shall have the same meaning as remedial action objectives in the National Oil and Hazardous Substance Pollution Contingency Plan (NCP) and their development shall be consistent with the NCP. (Source: June 2, 2006 Settlement Agreement For Implementation of RI/FS at the Upper Columbia River Site, Exhibit A, Statement of Work, p. 3)
